Addis Ababa, Ethiopia

EDUCATION

BSc in Mechanical Engineering, [Addis Ababa Science and Technology University]

10/2018 – 06/2022

- Graduated with CGPA of 3.54 on a scale of 4
- **Core courses:** engineering mechanics, thermodynamics, machine elements, fluid mechanics, strength of materials, mechanism of machinery, heat transfer, mechanical vibration, computer programming, IC engines and reciprocation machines, fluid power systems, product design and development, machinery design, mechatronics.
- **Core projects:** gear box design, medium duty semi-automatic industrial dolly (thesis), multi setup wood CNC machine design (internship project).

SKILLS

- Programming languages: C++, MATLAB
- Software: AUTOCAD, SolidWorks, ANSYS, MS word, MS excel, MS PowerPoint, Adobe InDesign, Catia.
- Fabrication: CNC programming, 3D printing
- Languages: English (proficient), Amharic (native)

WORK EXPERIENCE

Moya Food Complex, [Addis Ababa, Ethiopia]

10/03/2023 – 09/04/2024

- Manufactures different types of cookies
- Job title: machine operator and maintenance technician

Core responsibilities:

- Install, repair and maintain machineries
- Operating machines
- Design modifications

Andinet ICT Solutions, [Addis Ababa, Ethiopia]

09/05/2024 – current

- Deliver software solutions for business companies
- Design manufacture and install hardware components
- Job title: mechanical designer

Core responsibilities:

- Designing hardware parts
- Assembling and installing hardware components
- Providing technical support for customers

Nicodimos Industrial Machinery, [Addis Ababa, Ethiopia]

10/03/2023 – 09/04/2024

- Design and manufacture machineries
- Job title: mechanical designer

Core responsibility:

- Design machines based on customer needs
- Supervising the manufacturing process
- Assembling and installing machines

INTERNSHIP EXPERIENCE

MIDI (Metals Industry Development Institute), [Addis Ababa, Ethiopia]

09/06/2021 – 14/08/2021

- Manufactures machine spare parts
- Designs and manufactures molds and dies

Core responsibilities:

- Design parts on a CAD software and preparing CNC machine code for injection molding
- Designing agricultural machines and making draft for manufacturing

CERTIFICATIONS

Certification of recognition, [Addis Ababa science and technology university, Ethiopia]

May 2022

- For giving drawing tutor for Addis Ababa science and technology students

Certification of recognition, [Orange Digital Center, Ethiopia]

April 2022

- Working as an assistant on 3D and 2D modeling software for university students held at Addis Ababa Science and Technology University

Certification of recognition, [Orange Digital Center, Ethiopia]

Mar 2022

- Working as an assistant on 3D and 2D modeling software for university students held at Addis Ababa University, main campus

Certification of recognition, [STEMpower, Ethiopia]

Apr 2022

- Winner for qualifying as one of the top innovators from 200 candidates enrolled in the cohort-3 Entrepreneurial and Financial Education Training organized by STEMpower in collaboration with VISA

Certification of participation, [Addis Ababa science and technology university, Ethiopia]

Sep 2021

- For participating on the 6th annual student's science and Technology and Innovation Competition Day held at Addis Ababa Science and Technology University

PROFESSIONAL TRAINING

Employability Skill and Job Readiness, [Addis Ababa science and technology university, Ethiopia]

22/09/2022 – 23/09/2024

HOBIES AND INTERESTS

- Watching documentary, exploring nature, learning new skill
